- Maltodextrin

- After cleansing or rinsing your skin, apply generously to face, neck, and décolleté and allow setting for at least 10 minutes. Use once a week or more often if necessary  
- Can be used as an overnight mask for pigmentation. To sleep with the mask on, apply a thin layer to the skin and if additional nourishment is needed, apply an Esse moisturiser over the mask.

- After cleansing or rinsing your skin, apply generously to face, neck, and décolleté. Spritz with an Esse mist or splash with water and allow setting for at least 10 minutes.  
- Use once a week or more often for skin that is exposed to environmental pollutants.

- Apply to the eye area using a mask brush in a figure-of-8 movement while the facial mask is setting in.  
- Remove using a damp towel.

- Apply to face, neck and décolleté and allow to set for 15 minutes. Remove using damp towels.

- Apply to face, neck and décolleté and allow to set for 15 minutes. Remove using damp towels.

- After exfoliation, apply to congested areas and use steam for 8 min.  
- Can also be used with vacuum suction to loosen comedones.

- Prepare this mask immediately before application. Use the scoop provided to mix one scoop of the Esse Exclusion Mask with one scoop of cool water in a suitable bowl until it reaches an even, smooth consistency.

- Place the fabric mask into the reusable silicone mask mould.  
- Mix 30ml (the scoop provided) of powder with 30ml of water until smooth. Add another 30ml of water and mix until just combined, taking care not to over mix the mask. Pour the mixture onto the fabric sheet in the silicone mould. Move the mould around to distribute the mask evenly. Use a spatula to spread the mask in the mould evenly, if needed.

- \*Available in Professional Size only
